The objective of the ACM / IEEE International Symposium on Empirical Software Engineering and Measurement (ESEM) is to provide a forum where researchers and practitioners can report and discuss recent research results in the areas of empirical software engineering and software measurement.

The symposium encourages the exchange of ideas that help communicate the strengths and weaknesses of software engineering technologies and methods from an empirical viewpoint.

**GENERAL CHAIR**
Günter Ruhe, University of Calgary, Canada

**ORGANIZING CHAIR**
James Miller, University of Alberta, Canada

**PUBLICITY CHAIR**
Jonathan Sillito, University of Calgary, Canada

**PROGRAM CO-CHAIRS**
Martin Shepperd, Brunel University, UK, and Forrest Shull, Fraunhofer Center for Experimental Software Engineering, USA

**LOCATION**
The conference venue is the world famous Banff Centre
http://www.banffcentre.ca/conferences/

Banff is one of Canada’s most popular tourist destinations, known for its mountainous surroundings and hot springs. It is a major destination for outdoor sports and features extensive hiking, biking, scrambling and skiing areas within the region.
